Advice Letter No. 537-E

(U 913 E)

California Public Utilities Commission

Bear Valley Electric Service, Inc. ("BVES") hereby transmits for filing the following:

SUBJECT: 2025 Q4 Infrastructure Investment and Jobs Act Information-only Filing

SUMMARY

Pursuant to Article XII Section 6 of the California Constitution and the Public Utilities Code, the California Public Utilities Commission ("Commission") may adopt reasonable regulations for the oversight of costs passed on to the ratepayers of California. Resolution No. ("Res.") E-5254, dated April 6, 2023, adopts a procedural venue for the electric and gas investor-owned utilities ("IOUs") to request costs recovery for match funding and tax liabilities pursuant to any funds received from the Federal Infrastructure Investment and Jobs Act ("IIJA") Clean Energy Infrastructure Grant Programs administered by the United States Department of Energy ("U.S. DOE"), the Federal Inflation Reduction Act ("IRA"), and the Federal Creating Helpful Incentives to Produce Semiconductors and Science Act ("CHIPS"). Res. E-5254 also adopts an advice letter process for IOUs to track and report costs and grant project progress.

PURPOSE

This compliance filing establishes a tracking mechanism for IOUs to regularly report to the Commission's Energy Division on planning, seeking, and implementation of IIJA, IRA, and CHIPS awards. This advice letter is in compliance with Ordering Paragraph No. 5 of Res. E-5254. Ordering Paragraph No. 5 states,

Starting in Q3 of 2023 until all projects funded with IIJA grants are completed and implemented or Energy Division has notified the IOU that further reporting is no longer needed, Bear Valley Electric Service, Inc. (BVES), Liberty Utilities (CalPeco Electric) LLC (Liberty), Pacific Gas and Electric Company (PG&E), PacifiCorp d.b.a. Pacific Power (PacifiCorp), San Diego Gas & Electric Company (SDG&E), Southern California Edison Company (SCE), Southern California Gas Company (SoCalGas), and Southwest Gas Company (SWGAs) shall submit quarterly Tier 1 Information-Only advice letters containing, at a minimum, the information requested in Table 2 of this Resolution. Alpine Natural Gas and West Coast Gas Company should begin reporting in the quarter following approval of their Tier 2 Advice Letter in Ordering Paragraph 1.

BACKGROUND

The 2021 IIJA appropriated more than \$62 billion to the U.S. DOE to create and fund 60 new programs, including 16 demonstration and 32 deployment programs. The federal legislation also expands funding for 12 existing Research, Development, Demonstration, and Deployment (“RDD&D”) programs. Based on currently available guidance, for most programs, funding will be available annually through fiscal year (“FY”) 2026.

Through its various Funding Opportunity Announcements, the U.S. DOE has clarified the application requirements and procedures the electric and gas IOUs will need to include in their applications. As a result, the energy IOUs and Commission staff have identified numerous questions that need to be resolved consistently across the utilities on a short timeline to meet DOE deadlines. Resolving these questions and related issues will better position the energy IOUs to submit successful applications to receive available federal funding through the IIJA.

GRANT REPORTING

In order to ensure transparency and oversight, the Commission and public must remain informed on how the IOUs are utilizing IIJA, IRA, or CHIPS grants and match funding. In accordance with Ordering Paragraph No. 5 of Res. E-5254, Attachment A to this advice letter contains the following information for BVES:

For applications:

- Status of applications submitted to U.S. DOE (under review, not awarded, awarded, etc.) including timeframe, the grant section number, and project name
- Descriptions of projects proposed in grant applications, or anticipated use of funding, requested grant level (and commensurate ratepayer matching funds)
- Identify partners on the applications (other IOUs or POU, State agencies, Tribes, etc.)
- Assessment of future award opportunities including match requirements and the expected source(s) for any match funding

For awards:

- A description of each project awarded by the U.S. DOE under IIJA (or IRA or CHIPS, as applicable)
- Project timeline and development status
- Total award, funds expended and remaining, amount of ratepayer funding contributed, related match funding from other grants or programs, and grant or funding expiration date for any awards or matching awards
- Related proceedings (i.e., GRCs, wildfire mitigation, or other forums) where the project may be reviewed or may be used to meet other criteria
- An explanation of how the proposed project(s) maps to existing State priorities, including electric and gas customer rate and bill reductions, safety improvements, reliability enhancements and greenhouse gas emission reductions

- Project status including any delays, challenges, or lessons learned
- A narrative of costs incurred in alignment with the IJA Memorandum Account
- Identify if any projects are in State-designated disadvantaged communities or on Tribal lands

Since October 1, 2023, there have been no other changes, nor applications, or awards for BVES to report.

TIER DESIGNATION

This advice letter is submitted with a Tier 1 designation.

EFFECTIVE DATE

BVES respectfully requests this advice letter become effective January 31, 2026.

NOTICE AND PROTESTS

A protest is a document objecting to the granting in whole or in part of the authority sought in this advice letter. A response is a document that does not object to the authority sought, but nevertheless presents information that the party tendering the response believes would be useful to the Commission in acting on the request.

A protest must be mailed within 20 days of the date the Commission accepts the advice letter for submission. The Calendar is available on the Commission's website at www.cpuc.ca.gov.

A protest must state the facts constituting the grounds for the protest, the effect that approval of the advice letter might have on the protestant, and the reasons the protestant believes the advice letter, or a part of it, is not justified. If the protest requests an evidentiary hearing, the protest must state the facts the protestant would present at an evidentiary hearing to support its request for whole or partial denial of the advice letter.

The utility must respond to a protest within five days.

All protests and responses should be sent to:

California Public Utilities Commission, Energy Division
505 Van Ness Avenue
San Francisco, California 94102
E-mail: EDTariffUnit@cpuc.ca.gov

The protest or correspondence should also be sent via U.S. mail and/or electronically, if possible, to BVES at the addresses shown below on the same date it is delivered to the Commission.

Bear Valley Electric Service, Inc.
