RE: BVES Errata to 2023-2025 Wildfire Mitigation Plan

Dear Director Thomas Jacobs,

In accordance with the Office of Energy Infrastructure Safety's ("Energy Safety") 2023- 2025 Wildfire Mitigation Plan Process and Evaluation Guidelines¹, Bear Valley Electric Service, Inc. ("BVES") hereby submits an errata to its 2023-2025 Wildfire Mitigation Plan ("WMP").

In BVES's discovery process for its General Rate Case (GRC) Test Year 2023, the Results of Operations (RO) Model was updated after the submission of the WMP. This model is used to project several of BVES's WMP O&M initiatives. Thus, the model update affected the values provided in Table 4-1 of the WMP for Calendar years 2023-2025. BVES provides the updated Table 4-1 of the WMP below. Following the Final Decision approving BVES's 2023-2025 WMP, BVES will make available the updated WMP including the errata information on its website.

BVES requests Energy Safety's inclusion of BVES's errata to its 2023-2025 WMP submission when making considerations for Final Decision.

Sincerely,

/s/ Jeff Linam

Jeff Linam
Regulatory Affairs Manager
