*Subject: Tariff Modifications in Compliance with Ordering Paragraph No. 7 in
Decision No. 12-01-032*

PURPOSE

The purpose of this filing is to revise BVES' Rule No. 11 and Rule No. 16 to comply with the California Public Utilities Commission ("Commission") adoption of regulations to reduce fire hazards within the service territories of electric utilities under its jurisdiction. The regulations were adopted via Decision No. 12-01-032 on January 12, 2012.

BACKGROUND

Order Instituting Rulemaking (“OIR”) No. 08-11-005 was issued on November 6, 2008 by the Commission to consider and adopt regulations to reduce fire hazards associated with overhead power-line facilities and aerial communication facilities in close proximity to power lines. This OIR came about as a result of the investigation into the October 2007 Southern California wildfires. Portions of the electric power network, public communication systems, and community water sources were destroyed in those wildfires. Several of the worst wildfires were reportedly ignited by power lines. D. 12-01-032, among other things, adopted fire hazard reducing language that electric utilities were ordered to implement in their tariffs (Rules).

Specifically, Ordering Paragraph No. 7 in D. 12-01-032 states,

Investor-owned electric utilities shall file and serve a Tier 3 advice letter to revise their tariffs to state that the electric utility may shut off power to customers who do not allow access to their property for vegetation management activities, subject to the following conditions:

- i. The authority to shut off power is limited to situations where there is a breach of the minimum vegetation clearances for power lines required by General Order (GO) 95, Rule 35, Table 1, Cases 13 and 14.*
- ii. The authority to shut off power to customers who obstruct vegetation management activities does not extend to customers that are state and local governments and agencies.*
- iii. The authority to shut off power is limited to one meter serving the property owner’s primary residence, or if the property owner is a business entity, the entity’s primary place of business. This one meter is in addition to shutting off power, if necessary for public safety, at the location of the vegetation-related fire hazard.*
- iv. Prior to shutting off power, the electric utility shall follow the then-current procedures and notice requirements applicable to discontinuance of service for non-payment, including the requirements applicable for sensitive customers, customers who are not proficient in English, multifamily accommodations, and other customer groups, except as set forth in Item v below. To the extent practical, the applicable procedures and notice requirements shall be completed prior to a breach of the minimum vegetation clearances required by GO 95, Rule 35, Table 1, Cases 13 and 14.*
- v. For vegetation hazards that pose an immediate threat to public safety, the electric utility may shut off power to the obstructing property owner’s residence or primary place of business at any time without prior notice, except when the customer receives service under a medical baseline allowance. If power is shut off without prior notice, the electric utility shall attempt to contact the property owner for five consecutive business days by*

daily visits to the property owner's residence or primary place of business, in addition to sending a written notice, to inform the property owner why power has been shut off and how to restore service. If a utility determines that it is necessary to shut off power to a medical baseline customer, the utility shall attempt to notify the customer by telephone prior to the shut off.

COMPLIANCE

GSWC is revising BVES' Rule No. 11 and Rule No. 16 to adopt and implement the Commission's fire prevention language approved in D. 12-01-032. These tariffs will become effective upon the Commission's Energy Division approval of this advice letter, which has a tier 3 designation.

TARIFF REVISION

GSWC proposes to revise its Rule No. 11 and Rule No. 16 to implement the fire hazard prevention language adopted in D.12-01-032.

TIER DESIGNATION

This advice letter is being submitted with a Tier 3 designation, as ordered in D. 12-01-032

NOTICE AND PROTESTS

A protest is a document objecting to the granting in whole or in part of the authority sought in this advice letter.

A protest must be mailed within 20 days of the date the CPUC accepts the advice letter for filing. The Calendar is available on the CPUC's website at www.cpuc.ca.gov.

A protest must state the facts constituting the grounds for the protest, the effect that approval of the advice letter might have on the protestant, and the reasons the protestant believes the advice letter, or a part of it, is not justified. If the protest requests an evidentiary hearing, the protest must state the facts the protestant would present at an evidentiary hearing to support its request for whole or partial denial of the advice letter. The utility must respond to a protest with five days.

All protests and responses should be sent to:
