

Para más información en cómo este cambio impactará su pago mensual del servicio de electricidad, llame al 1-800-808-2837.

**Notice of Transfer of the Electric Utility Operations of
Bear Valley Electric Service Division of Golden State Water Company to
Bear Valley Electric Service, Inc.**

Effective July 1, 2020, your electric service will be provided by Bear Valley Electric Service, Inc. (BVES, Inc.).

Why am I receiving this Notice?

Bear Valley Electric Service (BVES), a division of Golden State Water Company (GSWC), has served the Big Bear Valley region for a long time, providing customers with superior customer service and safe dependable power. In Decision D.19-12-039, the California Public Utility Commission (CPUC) authorized GSWC to implement a corporate reorganization plan that will transfer the electric utility assets and operations of BVES a division of GSWC to BVES, Inc. Moving BVES from a division of GSWC to a stand-alone subsidiary of American States Water Company separates the business opportunities and risks between the electric and water utilities. Though these two businesses are both regulated by the CPUC, they are quite different in their operations and compliance requirements. The operations of the electric and water businesses face different challenges and risks not only because they provide different types of services, but because they provide those services to different customers in different geographical areas. The demands of each have continued to increase, thus warranting the separation. BVES Inc. will continue to provide reliable electric service, supported by the same local management and team of dedicated professionals. BVES, Inc. will be regulated by the CPUC.

How will this affect customers?

The requested changes will have no impact on customers. The electric utility will henceforth be known as Bear Valley Electric Service, Inc. There will be no change to electric service, operation, or rates as a result of the corporate reorganization.
